

# Mid South Chapter Meeting *\*REMINDER\**

Wednesday, January 24, 2007  
*Note the change from Tuesday, January 23*

10:00 am – 2:00 pm

**Clearspan Components**  
6110 Old Hwy 80 W • 601/483-3941  
**Meridian, MS**

*If you have an interest in these topics and are receiving this announcement, you are welcome to attend this meeting and tour. Bring your questions, concerns and contributions!*

## **10:00 pm – Tour of Clearspan Components, Meridian, MS**

Before our meeting, we will have a tour Clearspan Components, 6110 Old Hwy 80 West, Meridian, MS (601/483-3941). Manufacturing roof trusses, floor trusses and wall panels, the plant features custom wall panel equipment and high volume floor and roof truss operations.

Offering plant tours is a great way for us to build relationships and provide information for building and fire officials, architects and engineers, legislators, students and customers. Especially if you haven't given one of your own yet, come experience a plant tour and see how easy it is.

## **12:00 pm – Chapter Meeting and Lunch**

At this meeting, we will welcome WTCA Executive Director Kirk Grundahl with an update on the state of the industry and activities at WTCA. Items we will touch on include:

- The new research & testing facility under construction in Madison, WI
- The 2006 update of Building Component Safety Information (BCSI) and the status of the B series Summary Sheets
- The new marketing tool by WTCA to help you market your business, SCORE – Structural Component Operations Reaching for *Excellence*

This meeting will also provide an opportunity for our chapter to address its goals for the year. We welcome your input and ideas – just let us know what you would like our chapter to address.

If you are already a member of WTCA, you need to join this chapter! If you are not a WTCA member yet, come find out what you've been missing and how valuable membership can be to your company. Let us know what items you would like added to our agenda!

*Please let us know if you are able to attend:*
